

# Vinay Peri

Senior UX Designer, Cybersecurity and AI

Raleigh, NC | vinayperi.designs@gmail.com | <https://www.linkedin.com/in/vinayperi/> | <https://www.vinayperi-designs.com>

## PROFESSIONAL SUMMARY

Senior UX Designer with 10+ years of cybersecurity and infrastructure experience, specializing in enterprise security workflows, third-party risk management, supply-chain defense, and AI-assisted SaaS platforms.

## PROFESSIONAL EXPERIENCE

**Senior UX Designer | SecurityScorecard** | April 2025 – Present

Third-party risk management and supply-chain defense platform.

- Drove end-to-end UX for third-party risk management and supply-chain defense workflows used by enterprise security teams managing large vendor ecosystems.
- Redesigned permissions and administrative experiences including RBAC/ABAC controls, user management, and secure file-vault workflows, consolidating multiple legacy paths into a unified experience.
- Architected analyst-facing interfaces for AI-assisted threat detection, translating model outputs, confidence signals, and supply-chain telemetry into workflows that security teams can understand, trust, and act upon.
- Integrated AI tools including Claude, Gemini, Bolt, and Figma Make into research, workflow exploration, and prototyping processes, accelerating concept validation and design iteration.

**Senior UX Designer | BlueVoyant** | July 2022 – April 2025

Managed Detection and Response (MDR) and Digital Risk Protection platform.

- Owned the design system supporting analyst-facing cybersecurity products, consolidating fragmented patterns across MDR and digital risk protection workflows.
- Led research and redesign of threat-investigation workflows through direct collaboration with SOC analysts, reducing friction in case triage and escalation.
- Designed AI-assisted experiences for analyst tooling with an emphasis on trust, traceability, and human-in-the-loop decision-making.
- Conducted user research, usability testing, and workflow analysis across security personas, translating findings into product and design improvements.

**Product Designer | Orion Advisor Tech** | July 2021 – July 2022

Wealth-management and financial-planning platform for independent financial advisors.

- Led end-to-end UX design for wealth-management and financial-planning platforms used by advisors managing client portfolios, contributing to a 21% increase in engagement and 17% improvement in retention.
- Designed workflows, information architecture, prototypes, and usability-testing strategies for data-heavy financial planning experiences.

**UX Designer | George Mason University** | March 2021 – July 2021

- Led end-to-end user research including usability studies, interviews, surveys, personas, journey maps, and competitive benchmarking to uncover user needs and inform service-design strategy.
- Translated research insights into actionable recommendations and presented findings to stakeholders to drive design decisions and cross-functional alignment.

**Network Engineer and Security Analyst | HCL Technologies, Verisign, Accenture** | 2010 – 2020

- 10 years of enterprise cybersecurity and infrastructure experience spanning firewall administration, vulnerability management, incident response, security operations, and large-scale enterprise environments.
- Worked directly within security analyst tooling, permission systems, and operational workflows that now inform the design of enterprise cybersecurity products and analyst experiences.

## CORE STRENGTHS

**UX:** User Flows, Information Architecture, Interaction Design, Design Systems, Wireframing, Prototyping

**Research:** User Interviews, Usability Testing, Journey Mapping, Personas, Competitive Benchmarking

**Enterprise & Cybersecurity:** Third-Party Risk Management, Supply Chain Security, RBAC/ABAC, Security Operations, Analyst Workflows, Infrastructure UX, Enterprise SaaS

**Tools:** Claude, Gemini, Figma, Adobe Creative Suite, Jira, Confluence

**Education:** M.S., Information Security, George Mason University · B.S., Computer Science, Jawaharlal Nehru Technological University
